

PROFESSIONAL SUMMARY

Senior Full Stack Developer with **7.5 years of experience** architecting and scaling enterprise-grade web platforms across **Commercial Insurance (Underwriting Workbench & Benchmarking)**, FinTech E-Commerce, Real-Time Tracking, and SaaS domains. Deep domain mastery building high-throughput **Underwriting Benchmarking engines**, **Subscribe API integrations**, and **Exact Underwriting workflow engines** for global commercial insurance accounts including **AXA, CHUBB, MultiStrat, and Canopus**. Advanced technical expertise in **System Design, Microservices Architecture, Distributed Systems, React, Angular, Blazor, Node.js, .NET 8 / ASP.NET Core, SQL Server, Umbraco CMS, and Azure Cloud**. Target-driven engineering leader focused on delivering scalable microservices architecture for **Product-Based Companies** and **InsurTech Enterprise Leaders**.

TECHNICAL SNAPSHOT

ARCHITECTURE & DESIGN	System Design, Microservices Architecture, Distributed Systems, High Availability, Scalability, Domain-Driven Design (DDD), SOLID Principles
FRONTEND & UI	React.js, Angular (v2–v21), Blazor (Server/WASM), TypeScript, JavaScript (ES6+), Redux, RxJS, Micro-frontends
BACKEND & APIS	.NET 8 / ASP.NET Core, Node.js, Express.js, Microservices, RESTful APIs, Subscribe APIs, WebSockets, SignalR, Webhooks, gRPC
CMS, CLOUD & DATA	Umbraco CMS, Kentico CMS, Microsoft Azure (App Services, Key Vault, Cosmos DB), Docker, Azure DevOps, CI/CD, SQL Server 2022, EF Core

PROFESSIONAL EXPERIENCE

Senior Software Engineer — Sapiens Nov 2022 – Present

- Project: AdvantageGo — Commercial Insurance Underwriting Workbench & Benchmarking Platform | Enterprise Accounts: AXA, CHUBB, MultiStrat, Canopus
- **Architected Microservices & Underwriting Workbench Modules** using Angular 21, .NET 8, and SQL Server 2022, empowering commercial underwriters at global insurance leaders (**AXA, CHUBB, MultiStrat, Canopus**) to evaluate policy risks and pricing metrics.
 - **Engineered High-Speed Subscribe API & WebSocket Integrations** to stream real-time quote visibility, broker communication channels, and policy updates with **35% lower API latency**.
 - **Developed Exact Underwriting Workflow Engine**, automating complex rating rules, risk guidelines, and multi-tier approval routing across commercial property and casualty lines.
 - **Optimized System Performance & Database Query Throughput** by tuning EF Core execution plans, async data access, and LINQ queries, boosting database query response times by **40%**.
 - **Hardened Cloud Infrastructure & CI/CD Pipelines** with Docker containerization and Azure DevOps automation, cutting release deployment errors by **50%** across multi-tenant environments.

Associate Developer L2 — Publicis Sapient May 2022 – Nov 2022

- Project: Middy's B2B & B2C Enterprise E-Commerce Platform
- **Delivered High-Scale Microservices E-Commerce Experiences** utilizing React.js, ASP.NET Core, and Kentico CMS, serving thousands of daily active business buyers.
 - **Designed Modular React Component Libraries**, accelerating frontend feature iteration and checkout flow releases by **25%** across catalog, cart, and order processing modules.
 - **Engineered Custom Pricing & Order Services**, integrating multi-tier B2B contract pricing algorithms, catalog management, and payment gateway infrastructure.
 - **Collaborated in Agile Cloud Delivery** on Azure App Services maintaining high code quality through rigorous peer code reviews and automated testing.

Software Developer & Project Lead — Zenesys Technologies Oct 2020 – Apr 2022

- Products: Hibousoft, Ourmithla, ISG ProBenchmark, EasyGo, Umbraco CMS Portals
- **Led Full-Stack & System Design Delivery**: Directed a team of 4 developers building multi-tenant SaaS platforms, content hubs, and real-time tracking applications.
 - **Delivered Umbraco CMS Enterprise Portals**: Developed content-managed web solutions using **Umbraco CMS**, building custom C# backend controllers, dynamic layout templates, and RESTful content APIs for client sites.
 - **Engineered Hibousoft Platform (Blazor & .NET Core)**: Built an enterprise web application leveraging **Blazor (Server & WASM)** for reactive UI, real-time client-server DOM syncing, and unified C# full-stack code execution.
 - **Architected Ourmithla Web Platform (Node.js & React)**: Designed a full-stack platform featuring **Node.js asynchronous API microservices** and **React SPA UI** with fast rendering and optimized state flow.
 - **Developed ISG ProBenchmark SaaS**: Built a pricing intelligence platform using Angular, .NET Core Web API, and Azure Cosmos DB to process large-scale pricing metrics.

.NET Developer — Yoctel Pvt. Ltd. Nov 2019 – Oct 2020

- Platforms: SIMS, SuccessCapsule, ScholarshipDekho, Dips Academy
- **Built Academic & Assessment Systems** using .NET Core Web API, AngularJS/React, and SQL Server, scaling exam processing pipelines to handle **50,000+** concurrent submissions.

Junior Developer — Script Technology Pvt. Ltd. Apr 2019 – Nov 2019

- Projects: Travel Engineer & OTOAI Travel Booking Platforms
- **Engineered Itinerary & Booking Modules** with PHP (CodeIgniter), JavaScript, and MySQL, building custom inventory, vendor onboarding, and payment workflows.

KEY HIGHLIGHTED PROJECTS

Commercial Underwriting Workbench .NET 8 Angular 21 Subscribe APIs Microservices Engineered core benchmarking and quote management system serving commercial underwriters (AXA, CHUBB, MultiStrat, Canopius).	Hibousoft Platform Blazor (Server/WASM) .NET Core C# System Design Built high-performance enterprise web app utilizing Blazor for interactive UI, real-time client-server state synchronization, and reactive C# component design.
Ourmithla Platform Node.js Express Microservices React.js PostgreSQL Architected full-stack web platform using Node.js microservices backend and React.js frontend , optimized for low FCP and scalable API throughput.	Umbraco CMS Enterprise Portals Umbraco CMS .NET Core C# JavaScript Designed content-managed enterprise web portals at Zenesys with Umbraco CMS , custom backend API controllers, and structured content models.

EDUCATION

 **Master of Computer Application (MCA)**
IGNOU, Delhi (2018 – 2020) | Score: 61%

CERTIFICATIONS & HONORS

-  Microsoft Certified: Azure Developer Associate (**AZ-204**)
-  Microsoft Certified: Azure Fundamentals (**AZ-900**)
-  **Claude Developer Certifications** (Claude Code 101, Claude API)
-  Percepio Enterprise Technical Certifications
-  **Employee of the Year Award** – Zenesys Technologies
-  **WOW Award (Multiple-Time Winner)** – Sapiens
-  Top Performer Award – Sapiens | Q2 Excellence Award – Publicis Sapient
