VIKAS RAI

Full Stack & Azure Cloud Engineer | InsurTech System Architecture & AI Workflows

New Delhi, India • +91 7011214746 • vikasrai704@gmail.com

Portfolio: my-port-folio-beta-five.vercel.app • LinkedIn: linkedin.com/in/virtualvr • GitHub: github.com/VirtualRV

PROFESSIONAL SUMMARY

Senior Full Stack & Azure Cloud Engineer with 7.5+ years of experience architecting high-throughput enterprise platforms, distributed microservices, and scalable web applications across Commercial Insurance (Underwriting Workbench, Benchmarking & Policy Administration) and Enterprise SaaS/E-Commerce. Proven track record leading engineering tracks and delivering critical systems for tier-1 global insurance accounts (AXA, CHUBB, Canopius, MultiStrat). Deep technical mastery in .NET 8 / ASP.NET Core, C#, React.js, Angular (v14–v18), SQL Server, and Microsoft Azure Cloud Architecture. Combines robust technical leadership with 1.5+ years of hands-on Generative AI experience using Claude, ChatGPT, and Antigravity, specializing in token optimization (maximizing structured output quality with minimum token consumption), prompt engineering, and embedding practical AI Chatbots and Policy Creation Agents into enterprise systems like AdvantageGo Underwriting Workbench and LeadStorey.

TECHNICAL SKILLS

- **Technical Leadership:** Architecture Governance, System Design, Microservices, Domain-Driven Design (DDD), High Availability, Mentoring, Code Reviews, Sprint Delivery.
- **Cloud & DevOps:** Microsoft Azure (App Services, Functions, Azure OpenAI, Azure AI Search, Cosmos DB, Key Vault, Blob Storage), Docker, CI/CD, Azure DevOps.
- **Backend & APIs:** C#, .NET 8 / ASP.NET Core, ASP.NET Web Forms, Node.js, Express.js, Microservices Architecture, RESTful APIs, gRPC, WebSockets, SignalR, Subscribe APIs.
- **Generative AI & LLMs (Applied):** Claude, ChatGPT, Antigravity, Prompt Engineering, Token Optimization & Context Management (max output, min tokens), RAG & Vector Search, LLM APIs, Voice Transcription.
- **Frontend & Modern Web:** React.js, Angular (v14–v18), Blazor (Server/WASM), Progressive Web Apps (PWA), TypeScript, JavaScript (ES6+), Redux Toolkit, RxJS, Tailwind CSS.
- **Databases & Data Engineering:** SQL Server (2014–2022, Advanced T-SQL, Stored Procedures, Index Tuning, Query Execution Plans), Entity Framework Core (EF Core), PostgreSQL, Redis Cache.
- **Enterprise CMS Platforms:** Umbraco CMS, Kentico CMS.

PROFESSIONAL EXPERIENCE

Full Stack & Azure Lead Engineer | Sapiens

Nov 2022 – Present | New Delhi, India

AdvantageGo — Commercial Insurance Underwriting Workbench & Benchmarking Platform | Accounts: AXA, CHUBB, MultiStrat, Canopius

- **Underwriting AI Chatbot Integration:** Designed and integrated an AI Underwriting Assistant directly into AdvantageGo using Azure OpenAI and Azure AI Search. Indexed 5,000+ commercial risk manuals, policy endorsements, and reinsurance clauses via hybrid search, enabling underwriters to query complex coverage clauses with instant, source-cited guidance in <2 seconds (slashing research time by 60%).
- **Autonomous Policy Creation Agent:** Architected an automated submission intake and policy creation workflow within AdvantageGo. Ingests raw broker submissions (emails, PDF slips, SOVs), parses risk parameters via AI document extraction, automatically validates against carrier appetite, and calls Subscribe APIs for rating and binder drafting (cutting turnaround by 75%).
- **Prompt Engineering & Token Optimization:** Leveraged 1.5+ years of practical Gen AI experience with Claude, ChatGPT, and Antigravity to build structured prompt templates, few-shot schemas, and context pruning mechanisms, reducing token consumption by 35% while ensuring zero-hallucination JSON responses.
- **Microservices & Real-Time Streaming:** Led development of resilient .NET 8 and Angular (v16–v18) microservices, and engineered real-time WebSockets and SignalR streaming channels for live quote visibility and binder updates, cutting API latency by 35%.
- **Rules Engine & Database Tuning:** Automated complex commercial rating rules, authority matrices, and approval delegations for P&C lines; tuned EF Core execution plans and SQL Server indexing, boosting query throughput by 40% under peak loads.
- **Azure Cloud & CI/CD Governance:** Hardened multi-tenant Azure cloud infrastructure and automated Docker CI/CD deployment pipelines, cutting release failure rates by 50%.

Associate Developer L2 | Publicis Sapient

May 2022 – Nov 2022 | Gurugram, India

Middy's B2B & B2C Enterprise E-Commerce Platform

- **Microservices E-Commerce Delivery:** Engineered high-concurrency e-commerce features utilizing React.js, ASP.NET Core, and Kentico CMS, serving thousands of daily active enterprise buyers.
- **Pricing & Checkout Engine:** Developed multi-tier B2B contract pricing algorithms, custom discount logic, cart synchronization, and secure payment gateway integrations.
- **Component Libraries & Code Quality:** Built modular React component libraries with Redux, accelerating feature delivery by 25%; conducted peer code reviews and maintained 90%+ automated test coverage on Azure.

Software Developer & Project Lead | Zenesys Technologies **Oct 2020 – Apr 2022 | New Delhi, India**

Products & Clients: ISG ProBenchmark, Hibousoft, LeadStorey, 5storey, Umbraco & Kentico CMS, Ltechpro (EasyGo, Delleroze, Meatstore), Saudi Enterprise Portals

- **Engineering Team Leadership:** Managed a team of 4 developers across sprint planning, system design, architectural governance, and delivery of multi-tenant SaaS platforms and enterprise portals.
- **LeadStorey.com (AI Lead Capture Agent & Voice):** Built an automated lead capture agent for LeadStorey.com aggregating prospect inquiries from WhatsApp and Meta into a unified dashboard, incorporating voice note transcription for rapid sales response.
- **Hibousoft.com & 5storey.com (PWA & Blazor):** Architected Progressive Web Applications (PWA) and enterprise portals using Blazor (Server/WASM) and .NET Core, delivering offline capabilities, reactive UI, and unified C# execution.
- **ISG ProBenchmark SaaS & Enterprise CMS:** Engineered a pricing benchmark SaaS engine using Angular, .NET Core Web API, and Cosmos DB; built custom Umbraco and Kentico CMS portals for a Saudi Arabian enterprise project and Ltechpro accounts.

.NET Developer | Yoctel Pvt. Ltd. **Nov 2019 – Oct 2020 | New Delhi, India**

Platforms: SuccessCapsule, ScholarshipDekho, SIMS, Dips Academy

- **Greenfield Product Architecture (Built from Scratch):** Architected and developed flagship ed-tech platforms SuccessCapsule and ScholarshipDekho completely from scratch, designing database schemas, REST APIs, and responsive frontends using .NET Core Web API, AngularJS/React, and SQL Server.
- **High-Concurrency Exam Engine:** Scaled assessment processing pipelines to handle 50,000+ concurrent exam submissions with zero downtime, integrating automated result calculation, candidate verification, and secure reporting APIs.

Junior Developer | Script Technology Pvt. Ltd. **Apr 2019 – Nov 2019 | New Delhi, India**

Projects: Pahle India Foundation (pahleindia.org, hrms.pahleindia.org, dbms.pahleindia.org)

- **Core Web Portals Maintenance:** Maintained and enhanced web applications using ASP.NET Web Forms, C#, and SQL Server for core public, HRMS, and DBMS portals (pahleindia.org, hrms.pahleindia.org, and dbms.pahleindia.org).
- **SQL Server Database Engineering:** Designed and optimized complex stored procedures, views, and data integrity constraints; resolved legacy rendering bottlenecks and implemented role-based user access control.

KEY HIGHLIGHTED PROJECTS

- **AdvantageGo Underwriting AI Chatbot & Rule Search:** Built an enterprise guideline search assistant for commercial underwriters using Azure OpenAI, Azure AI Search, and .NET. Enabled rapid querying over 5,000+ policy forms and risk guidelines with verified source citations.
- **AdvantageGo Autonomous Policy Creation Agent:** Designed an automated submission intake and policy creation pipeline that extracts risk parameters from broker emails/PDFs, checks underwriting rules, calls AdvantageGo Subscribe APIs for rating, and drafts policy binders.
- **LeadStorey.com — WhatsApp/Meta Lead Capture & Voice System:** Automated lead generation platform capturing real-time inquiries across WhatsApp and Meta into a unified dashboard, featuring contact extraction and voice note processing.
- **SuccessCapsule & ScholarshipDekho (Built from Scratch):** Architected and scaled from zero to 50,000+ concurrent users with .NET Core Web API, React/AngularJS, and high-performance SQL Server database design.
- **AdvantageGo Commercial Underwriting Workbench:** Multi-tenant commercial insurance workbench deployed for tier-1 carriers (AXA, CHUBB) featuring high-throughput .NET 8 microservices, Angular frontend, real-time WebSockets, and complex pricing/benchmarking engines.
- **Hibousoft.com & 5storey.com (PWA & Blazor):** Enterprise web applications built with Blazor (Server/WASM), Progressive Web App (PWA) architecture, and .NET Core for responsive real-time client-server execution.

EDUCATION

- **Master of Computer Applications (MCA)** — Indira Gandhi National Open University (IGNOU), Delhi **2018 – 2020 | Score: 61%**

CERTIFICATIONS & HONORS

- Microsoft Certified: Azure Fundamentals (AZ-900) – Percipio
- Generative AI (AI-200) Certification: LinkedIn (Certificate ID: 05A691-B89A6V)
- Claude Developer Credentials & Courses: Claude Code in Action, Claude Code 101, Claude API
- Percepio Enterprise Technical Certifications
- Honors & Awards: Multiple-Time WOW Award Winner (Sapiens) • Top Performer Award (Sapiens) • Q2 Excellence Award (Publicis Sapient) • Employee of the Year (Zenesys Technologies)
